Notes:

1 Web punchouts are not considered for shear and web crippling.

2 Deflection checks are computed using unbalanced loads for the two equal span conditions.

3 "e" indicates that the web stiffeners are required at the end support only.

4 "i" indicates that the web stiffeners are required at the interior support only.

5 "a" indicates that the web stiffeners are required at all supports.

6 See additional floor joist notes on page 62.

Notes:

1. Web punchouts are not considered for shear and web crippling.
2. Deflection checks are computed using unbalanced loads for the two equal span conditions.
3. "e" indicates that the web stiffeners are required at the end support only.
4. "i" indicates that the web stiffeners are required at the interior support only.
5. "a" indicates that the web stiffeners are required at all supports.
6. See additional floor joist notes on page 62.
