

Bullnose Corner Bead (CBB)

Metal Corner Bead

Bullnose corner bead is used to create a smooth, rounded look to standard drywall corners. Bullnose adds contemporary styling and a sense of openness to any room. Bullnose bead is nailed, screwed or stapled in place and finished with joint compound. Bullnose is available with a galvanized finish meeting ASTM C1047 standard.

Bullnose to 90° transition caps are available to provide a smooth transition to baseboard or corner molding. They install quickly and easily and can be used with metal, vinyl or paper-faced bullnose corner bead.

Product Data & Ordering Information

Material: 0.0125" min. thickness, galvanized coating
 Dimensions: 1-1/4" leg x 1-1/4" leg x 3/4" Radius

| Size (Radius) | Length | Wt./Ctn. | Pcs./Ctn. |
|---------------|--------|----------|-----------|
| 3/4" | 8' | 52 lbs | 50 |
| 3/4" | 9' | 53 lbs | 45 |
| 3/4" | 10' | 52 lbs | 40 |

ASTM & Code Standards

- ASTM C1047
- SDS & Product Certification Information is available at www.clarkdietrich.com/SupportDocs

Storage

All stored materials shall be kept dry. Materials shall be stacked off the ground, supported on a level platform, and protected from the weather.

09.22.00 (Support for Plaster & Gypsum Board)

Metal Corner Bead

- Finish for superior compound adhesion
- Galvanized for corrosion protection and durability
- Rugged steel construction
