

Paper-Faced Bullnose Splayed Tape-on (CD1-OBN)

Paper-Faced Beads & Trims

Off-angle bullnose tape-on bead, also known as splayed bullnose or 120/135° bullnose corner bead is used to provide a rounded, bullnose finish for off-angle drywall intersections. Paper-faced tape-on off-angle bullnose bead is applied in the same manner as 90° paper bead. Joint compound is used to embed the paper-faced bead to the wallboard paper. The result is a clean, crisp, rounded off-angle corner that will not crack or chip.

Product Data & Ordering Information

Material: 0.0125" min. thickness, galvanized coating
Dimensions: See table below - 50 pieces/carton

Product code	Style	A	B	C	Wt./Ctn.
CD1-OBN	Off-Angle	1"	3/4"	1"	53 lbs

Code Approvals & Performance Standards

- [ASTM C1047](#) Standard Specification for Accessories for Gypsum Wallboard and Gypsum Veneer Base
- [SDS For ASTM A653 Steel Finishing Products](#) For Interior Finishing and Exterior Finishing

Storage

All stored materials shall be kept dry. Materials shall be stacked off the ground, supported on a level platform, and protected from the weather.

- Substantially reduces joint compound consumption and eliminates one finish coat
- Does not require mechanical fastening (no nails, staples, screws or crimps)
- Superior adhesion, bonding and paintability
- U.S. Patent Nos. 5,613,335 and 5,836,122
