

ClarkDietrich Holdown (CD8-B)

7 Gauge (179mil) 11" tall shearwall holdown with bolted connection to metal stud framing

ClarkDietrich Holdowns provide cost-effective shearwall attachment and are used to transfer tension loads between floors or from structural members to the foundation. Two-piece welded construction comes in three sizes for optimal performance. Installation is made easy with prepunched holes.

For allowable shear, tension and moment loads, see load tables at www.clarkdietrich.com/Holdown
