

(FCSC-HD) FastClip™ Slide Clip w/ Anchor Hole

14 Gauge 6" long vertical slide deflection clip

ClarkDietrich FCSC-HD 68mils (14ga) is used to attach exterior curtainwall studs to the building concrete structure and provide for vertical building movement independent of the cold-formed steel framing.

FastClip Deflection™ Screws are provided with each clip for attachment to the wall studs and allow for 3" vertical deflection (1-1/2" up and down) to ensure friction-free sliding. A 3/8" hole in the short leg of the clip allows for a 1/2" concrete anchor to be attached to the slab.
