

## (FTC10) Fast Top™ Clips 9-3/4" 14 Gauge 9-3/4" wide vertical deflection clip

ClarkDietrich Fast Top™ Clips are used in head-of-wall deflection conditions for in-fill curtain wall assemblies to provide for vertical movement. These clips are used in place of or in combination with deflection track. They provide a positive attachment and do not require bridging installed continuously throughout the upper most punchouts.

The Fast Top™ clip can be attached to the underside of structural members, concrete decks or floor assemblies. Studs must be cut less than full height to enable vertical movement up to 2-1/2" (1-1/4" up and down). Fast Top™ Clips install quickly with welds, screws, or powder actuated fasteners. FastClip™ deflection screws are used to attach the clip to the cold-formed framing and to ensure frictionless deflection. These clips are also embossed with fastening patterns to ensure accurate placement of fasteners.

For allowable loads for multiple connection options, reference the Clip & Connector Catalog or [www.clarkdietrich.com](http://www.clarkdietrich.com) for more information.

### Product Data & Ordering Information:

Material	Mill-certified SS Grade 50ksi (340 MPa)
Dimensions	1-1/2" x 4" x 9-3/4" (38.1mm x 102mm x 248mm)
Thickness	14ga (68mil), 0.0713" Design thickness, 0.0677" Min. thickness
Coating	G90 (Z275) hot-dipped galvanized coating
Packaging	25 pieces per box. Includes 110 FastClip deflection screws per box.

### ASTM & Code Standards:

- Galvanized sheet steel meets or exceeds requirements of ASTM A1003
- SDS & Product Certification Information available at [www.clarkdietrich.com/SupportDocs](http://www.clarkdietrich.com/SupportDocs)

### Alternative Products:

- MaxTrak® Slotted Deflection Track Systems

## 05.40.00 (Cold-Formed Metal Framing)

Deflection Connections

- Vertical movement up to 2-1/2" (1-1/4" up and 1-1/4" down).
- FastClip Deflection Screws (included) provide frictionless slip connection.
- U.S. Patent No. 6,688,069

FastClip™ Deflection Screw
