

Metal J-Trim #400 (M400 Series)

Metal Trim

Metal J-Trims are strong, reveal-type galvanized steel casings that provide maximum protection and neat finished edges to drywall terminations around door and window openings. Metal J-Trims also deliver a clean trim line at intersections or where gypsum panels abut dissimilar surfaces such as columns and window mullions. Hemmed-edges allow for quick installation and do not require joint compound for finishing.
