

## Paper-Faced Splayed Corner Bead (CD1-O or P10)

### Paper-Faced Beads & Trims

Off-angle tape-on bead, also known as splayed or 120/135° corner bead, is used to provide a strong, smooth finish for outside off-angle drywall intersections. Paper-faced tape-on off-angle bead is applied in the same manner as 90° paper bead. Joint compound is used to embed the paperfaced bead to the wallboard paper. The result is a clean, crisp, durable off-angle corner that will not crack or chip.

#### Product Data & Ordering Information

Material: 0.0125" min. thickness, galvanized coating  
 Dimensions: See table below - 50 pieces/carton

Product code	Style	A	B	C	D	Wt./Ctn.
CD1-O or P10	Off-Angle	1/2"	3/4"	5/8"	5/8"	40 lbs

#### ASTM & Code Standards

- ASTM C1047
- SDS & Product Certification Information is available at [www.clarkdietrich.com/SupportDocs](http://www.clarkdietrich.com/SupportDocs)

#### Storage

All stored materials shall be kept dry. Materials shall be stacked off the ground, supported on a level platform, and protected from the weather.

### 09.22.00 (Support for Plaster & Gypsum Board)

- Substantially reduces joint compound consumption and eliminates one finish coat
- Does not require mechanical fastening (no nails, staples, screws or crimps)
- Superior adhesion, bonding and paintability
- U.S. Patent Nos. 5,613,335 and 5,836,122

#### Sustainability Credits:
