EXTENDED FastClip™ 8” Slide Clip
(FCEC) 14 Gauge 8” long vertical slide deflection clip

ClarkDietrich EXTENDED FastClip™ Slide Clip deflection clips are used to attach exterior curtainwall studs to the building structure and provide for vertical building movement independent of the cold-formed steel framing. The clips are available in standard lengths of 6”, 8”, 10” and 12” and are ideal for medium to larger standoff conditions. EXTENDED FastClip™ deflection clips install quickly with screws, welds, or powder-actuated fasteners, and provide adjustable standoff to ensure a plumb wall plane. FastClip™ Deflection Screws are provided with each clip to ensure friction-free sliding.

For allowable loads for multiple connection options, reference the Clip & Connector Catalog or www.clarkdietrich.com for more information.
