11-1/2" Flat Tail™ Slide Clip (FTSC6-118)

10 Gauge (118mil) x 11-1/2" Long for 6" or 8" Studs - Vertical Deflection

ClarkDietrich’s Flat Tail Slide Clip™ is used to attach exterior curtain wall studs to the building structure and provide for 2-1/4" vertical building movement independent of the cold-formed steel framing. A Flat Tail Slide Clip provides variable standoff and eliminates the need for shims or additional framing components. The clip easily fastens to the floor/ceiling beam and is secured to the stud with ClarkDietrich proprietary deflection screws. The clip restricts lateral movement, but enables vertical building movement.

Product Data & Ordering Information:
- **Material:** Structural Grade 50 Type H (ST50H), 50ksi (340 MPa)
- **Coating:** G90 (Z275) hot-dipped galvanized coating
- **Thickness:**
  - 10 Gauge (118mil)
  - 0.1242" Design thickness
  - 0.1180" Minimum thickness
- **Dimensions:** 4-1/2" wide x 11-1/2" long x 4-1/4" tall
- **Packaging:** 25 clips per bucket - Includes 160 FastClip deflection screws per bucket.
- **Product Weight:** 2.92 lb / piece

Installation:
Connection to the building can be made with screws, powder-actuated fasteners (PAFs), or by welding. Mechanical fasteners shall be located in the pilot holes. (2) FastClip Deflection Screws are required in each slot to attach the clip to the cold-formed steel framing. Screws shall be placed in the slot with 1" center-to-center spacing using guide lines as a reference.

ASTM & Code Standards:
- Sheet steel meets or exceeds requirements of ASTM A1003
- Galvanized coating meets or exceeds requirements of ASTM A653
- SDS & Product Certification Information available at www.clarkdietrich.com/SupportDocs
