

DATE: January 2024  
REGARDING: **Build America, Buy America Act Compliance (BABA)**  
**Vinyl Based Product Requirements**  
(Pub. L. 117-58, 135 Stat 429, 70901-70927; 2 C.F.R. Part 184)

On November 15, 2021, President Biden signed the Bipartisan Infrastructure Law (BIL) into law, which includes the Build America, Buy America Act (BABA). BABA establishes a domestic content preference for Federal financial assistance obligated for infrastructure projects.

The BABA preference applies to three separate product categories:

- (i) iron or steel products
- (ii) construction materials
- (iii) manufactured products

ClarkDietrich purchases raw PVC materials, which we further process into what the BABA considers a construction material or a manufactured product. Thus, to meet BABA's requirements, the raw PVC used in these products must be "produced in the United States." 2 C.F.R. 184.1(b).

ClarkDietrich has surveyed all our vendors to identify who supply's ClarkDietrich BABA compliant raw materials.

All ClarkDietrich manufacturing processes take place in the United States.

Generally, ClarkDietrich can fulfill all **Build America, Buy America Act** orders.

**NOTE:**

**\*\*\* For ClarkDietrich to supply Build America, Buy America Act compliant vinyl products, you must communicate the special need when requesting a quotation and prior to placing any orders. In doing so, we can flag your order to ensure the appropriate raw materials will be applied to your order. \*\*\***

Best Regards,

*Adam Shoemaker*
